FIX'N GO® WHAT IS IT ?

The unique solution to repair, easily and provide a quick and permanent solution for your conveyor belts.

The repair patch quick to install

FIX'N GO® is an innovative and quick solution to repair rips or damages on conveyor belts.

Made with a strengthened fabric and a rubber with a very high abrasion index of 50mm³, **FIX'N GO®** offers a higher protection against frictions and wear than your conveyor belt used, without impacting its flexibility, resistance to elongation and tensile strength.

By repairing your belt with **FIX'N GO®**, you use a permanent solution with no need to replace it in the future.

The MLT specific screws are self-drilling and selftapping : the carcass threads are spread without being cut.

The **FIX'N GO®** repair patch :

- used for longitudinal rips, belt edge snags, impacts, holes,
- even allows two belts to be spliced longitudinally,
- can be used for multi-ply and monopy belts up to 1250 N/mm,
- is available in 2 versions: galvanized steel or stainless steel
- Quick and easy to install on all types of belts

FIX'N GO® IN ALL APPLICATIONS

Quick and easy to install on all types of belts

THE ADVANTAGES

- High resistant product against rip and regular impacts.
- Easy and quick installation.
- No need for specialised tools, just a powered driver and a belt skiver are necessary.
- Compatible with small pulley diameter.
- A unique product for all your belts and all your repairs.
- Installation regardless of the access conditions, weather conditions (rain, snow, wind, cold weather...) during the day or the night.
- Safe product: no need of dangerous products like adhesives or chemical products harmful to health.
- Compatible with belt scrapers or cleaners.

Application fields

Heavy industries

Mines

Cement plants

Quarries and surface mines

Versions of rubber available

ABRASION RESISTANT

FIX'N GO®, made with abrasion resistant rubber can be used in almost all applications.

FIRE-RESISTANT

FIX'N GO®, fabricated with a fire-resistant covering ISO 340 and ISO 284 is a security for you in your mines and silos.

HEAT RETARDANT

FIX'N GO® is suitable with your heat retardant belts and can resist up to 170°C and up to 200°C flash.

OIL RESISTANT

FIX'N GO® is also available with an oil resistant covering which resists against oils and solvents.
